MAPLE CITY HOMES – COVID-19 RESPONSE

In an effort to minimize any exposure to COVID19, the Maple City Homes administration office will be temporarily closed effective end of business day Thursday, March 19th. **Our staff will continue to provide all regular services, and will be doing so during regular business hours, but remotely.** Means of communication will be easily accessible via video chat, email or telephone.

In the interest of the safety of our staff, trades and our community during this unprecedented health crisis, all construction activity will be put on hold, and the situation will be re-evaluated on March 30th. The pause on construction will take effect Friday, March 20th at 5pm. All areas of the site will be secured during this construction pause.

All open house events have been postponed, but private viewings can be scheduled.

April home closings are scheduled as planned. All other closings will be re-evaluated, and an update will be given in due course, as we monitor the situation.

At this time Maple City Homes would like to take the opportunity to thank our customers, staff, Realtors, trades people and our community, as we take these measures in the greater effort of minimizing any possible exposure and spread of Covid19.

Please visit our website and social medial accounts for further updates as they become available.
